I. Epidemiological profile

Population: 2014
- High transmission (>1 case per 1000 population): 1,930,000 (100%)
- Low transmission (0-1 cases per 1000 population): 0 (0%)
- Malaria free (0 cases): 0 (0%)
- Total: 1,930,000

II. Intervention policies and strategies

- ITN: ITN/LLINs distributed free of charge (Yes, 2006)
- IRS: IRS is recommended (Yes, 1998)
- Vector control: Use of larval control recommended (Yes, 2002)
- Diagnosis: Patients of all ages should receive diagnostic test (Yes, 2009)
- Treatment: ACT is free for all ages in public sector (Yes, 2008)
- ACD for case investigation (Yes, 1998)

III. Financing

Sources of financing

- Government
- Global Fund
- World Bank
- USAID/PMI
- WHO/UNICEF
- Others

IV. Coverage

ITN and IRS coverage

V. Impact

Confirmed malaria cases per 1000 and ABER

Impact: Insufficiently consistent data to assess trends
